Announcement

OWING to the very dry season in Southern Alberta and the almost complete failure of crops, and consequent shortage of feed, it has been found necessary to materially reduce the number of Shorthorns on His Majesty, The King's E. P. Ranch. Since most of the breeders of cattle in this district were similarly situated, and as none of the Shorthorns from this herd had ever been offered for the appraisal and possible benefit of the Shorthorn fraternity of Eastern Canada and the United States, it was decided to have a public sale of a very select draft of some of the most desirable and valuable animals at some central location in Ontario. On request, Mr. T. A. Russell, of Brae Lodge Farms, Downsview, very kindly offered the excellent accommodation of his place for holding this sale, and also consented to assign a number of his richly-bred and most desirable young animals in order to assist in making the sale an attractive one.

His Majesty's herd has been established and built up during the past seventeen years upon foundation stock selected from the best breeders in Great Britain. These British gentlemen, recognizing the philanthropic nature of the enterprise of His Majesty in establishing a herd of Shorthorn cattle in Western Canada, gave every encouragement possible by allowing and assisting in a selection of their very best and most valuable young animals of both sexes in support of the enterprise. Only animals of the most desirable modern type, and of the best strains and families, were imported.

The imported Sires that have been used include Climsland Broadhooks, Climsland Goldsmith, King of the Fairies, Master Gaffer, Cruggleton Shylock, Balcairn Rotax and the present sire, Bapton Orator, all outstanding individuals bred from the best sires and dams in Britain. The females, as will be noted by the pedigrees, are of the richest breeding, including representative animals from all the most popular families.

(Continued Next Page)

With such foundation stock reared in one of the most favorable locations in the foothills of Alberta, enabling them to live and thrive for the most part in the out-of-doors, they have developed wonderful constitutions and splendid fleshing properties. The herd has been absolutely free from Tuberculosis ever since it was established and is fully accredited under the Federal plan.

The Brae Lodge herd has been established and built up along very similar lines, and with the same object in view, viz., the improvement and advancement of the Shorthorn breed of cattle in Canada. Successive importations of choice young females of the richest breeding have been made and only the very best of sires have been used. The entries, both male and female, from Brae Lodge Farms feature the get of Raveni Master. Four of the bulls and one of the heifers are sired by Raveni Master and one of the other females was bred to him.

All of the animals selected for the Sale are fully accredited and all have shown negative reactions to the agglutination test for Bang's Abortion disease.

We present the animals in this Sale in natural breeding condition; none have been pampered or weakened by forced feeding for show or for this Sale, and we feel confident that their reception at this time will be a generous one and their distribution among the breeders of Eastern Canada will serve to strengthen and enrich the many valuable herds already existing there.

The primary object back of the maintenance of both the herds represented has been the improvement of the beef cattle of Canada and especially of the Shorthorns, and if the sale and distribution of many of our favorite and most desirable animals at this time will serve in some measure in accomplishing this object, we will consider our efforts fully rewarded.

T. A. RUSSELL,
Brae Lodge Farms.

W. L. CARLYLE,
Mgr., E. P. Ranch.
